CHESTNUT GROVE
Australia-Israel Chamber of Commerce Inc.

To book the Property event [CLICK HERE](#)

ABSTRACT: The Perth property market has at times been counterintuitive to national movement, based on migration driven demand and supply, historic trends, and demographic profiles.

Commentary suggests that in the year ahead will see the full impact of rising interest rates, due to many fixed rate mortgages now reaching term.

The question remains, will monetary policy to lift interest rates risk driving Australia into recession? What does this mean for the local property market and most importantly, what are the wise decisions we can make as we venture into a high rates cycle that has not been experienced for some time?

*Our expert panel including; REIWA CEO **Cath Hart**, Bendigo Community Bank's Chair **Nick Catania** and facilitated by Property Analyst and leading commentator, **Gavin Hegney**; will address these points over lunch, with a major emphasis on audience participation where you will have the opportunity for input and to ask your questions.*

Sponsors committed so far are:-

The Agency; MSA-Mortgage & Finance Solutions Australia; Schaffer Corporation; Bendigo Bank; PKF; Chapter One Advisors; Strand; (others pending).

Venue: The WA Italian Club.

Times: 11.45pm to 2.30pm tbc.

Sponsors welcome, contact perth@aicc.org.au

Thurs 27 July (fnTS 1) “Space-The Final Frontier” is event 1 (fnTS 1) in the three event AICC(WA) Sentient Hubs fnTS-futureNOW Technology Series for 2023, covering space industry developments in Israel and Australia, identifying and exploring common challenges and opportunities.

Abstract: *Surveillance from space provides the technological ability to see and hear almost anything. Shifting goods and people by robotic means (drones and autonomous vehicles) is now economically viable and costs are quickly reducing. Assured and secure access to space-based services and space-derived data is essential to the long-term success of these and related innovations. The event will seek to identify areas where Israel’s experience and expertise in the development, operation and application of space technologies might benefit Australia in partnerships that, as the Australian space sector matures could be expected to flow both ways to the mutual benefit of Australia and Israel. A technically proficient workforce is essential to the space enterprise and some emphasis will be placed on ensuring the ‘skills pipeline’.*

This AICC(WA) AROSE supported cocktail evening will be held at Pawsey Supercomputing Centre, 1 Bryce Ave, Kensington from 5.30 to 8.30pm and features the Director General of Israel’s Space Agency, **Uri Oron** online from Israel and in person event moderator Australia’s space expert **Dr Brett Biddington AM**.

The event will be opened by Israel’s Ambassador to Australia, HE Amir Maimon.

The AICC(WA) brings you a rare event that will showcase Israel’s innovations in the global space sector and will explore synergies that may be developed between Israel and Australia in the space domain.

Mr Uri Oron, Director General of the Israeli Space Agency will present a mini keynote address and will be joined on a panel with two Israeli colleagues from the sector. The focus of the discussion will be on opportunities that exist for space collaboration in Australia especially in remotes sensing, and STEM education.

Mr Oron will also discuss the critical role that governments play in space matters and address workforce issues as well. Two Australian based panelists will be part of the conversation: **James Yuen**, Director – Space, WA Government’s Department of Jobs, Tourism, Science and Innovation and **Dr Newton Campbell Jr**, Director of Space Programs at AROSE and former NASA Senior Computer and Ai Scientist.

In areas as diverse as space-based remote sensing, satellite communications and growing plants in zero or low-gravity environments, Israel has a long-standing and successful space heritage in launch, satellite design, manufacture and operations, as well as the management and processing of data to aid decision-making. Israel has demonstrated technological maturity and has manufactured durable and competitive products and services that contribute to the global space

economy. Israel was the eighth country in the world to succeed in launching and positioning satellites in space.

Western Australia hosts numerous facilities that are vital components of Australia's space capabilities. The State also supports new projects that promise to add to Australia's space capabilities and the global space ecosystem in the decades ahead. Public and private investments are driving growth in remote operations, robotics, agriculture, emergency services and surveillance. A similar situation applies in Israel where the nation's investments in space contribute to defence, manufacturing and trade including in ways that are changing the way we view Earth and go about our daily lives. Taking account of the relative maturity of the Israeli space sector and the nascent state of the Australian space sector, we are confident that there is much Australia can learn from Israel's success.

This ticketed event is open to sponsors. Sponsors committed so far are: Sentient Hubs; Nexia Australia; Pawsey Supercomputing Center; Chronos. Supported by AROSE. To view sponsorship options click here: <https://sales.aiccwa.org.au/aiccwa-sponsorship>

August 10

'Start-Up' WA Delegation to Israel in 2023 Information Briefing Session 5.45-8.00pm Venue tbc

Mond Sept 11 (fnTS 2) **"Why Agribusiness..?" (fnTS 2)** *Given climate change, geo political trade barriers and social activism, why would anyone invest in agribusiness right now?* with Mr Mark Allison, Managing Director & CEO, Elders Ltd, one of Australia's most innovative agricultural business organisations. This event (fnTS 2) in the second of three event AICC(WA) Sentient Hubs fnTS-futureNOW Technology Series for 2023.

Mark will explore Australia's most urgent agri issues, from massive global contextual impacts of rapidly evolving technologies and volatilities in our trading scenarios. Plus other relevant topics including: the new paradigm for farm ownership and working for institutional investors; the relative returns from agri-investment; and the impact on the pricing of farmland and water resources. Featuring The Food Futures Institute-dedicated to securing and sustaining the food bowls of the future. Sponsors: Milne AgriGroup; Nexia Australia; Murdoch University's Future Food Institute; Manukalife; Moerk Water; and BDO. Date tbc. Sponsors welcome, contact perth@aicc.org.au

Thursday 12 October

AICC(WA) Annual Dr Patricia Kailis AM OBE Women of Achievement LUNCH event 2023 featuring **Dr Vanessa Guthrie** AO FTSE Hon DSc, PhD, BSc (Hons). Speech title tbc. Times 11.45am to 2.45pm. Venue: Duxton, Perth

Vanessa Guthrie AO is an Australian businesswoman, known for her work as a company director in the resources sector, including three years as chair of the Minerals Council of Australia. In 2017 she was appointed to the board of the Australian Broadcasting Corporation by then prime minister Malcolm Turnbull. Vanessa was CEO and director of Toro Energy Ltd., head of sustainable development at Alcoa World Alumina & Chemicals, and vice president of sustainable development at Woodside Energy before accepting a number of board roles. She joined the board of the Minerals Council of Australia in 2014 and became chair in 2016, completing her three-year term in June 2019. Helen Coonan replaced her as chair. Guthrie was appointed non-executive director of the Australian Broadcasting Corporation for a five-year term commencing 23 February 2017; she resigned in March 2021. Dr Guthrie has been a non-executive director of Santos Limited since 1 July 2017; Adelaide Brighton Ltd since February 2018; Tronox Holdings PLC since March 2019; and in March 2019, she became a member of the Australia-India Council for a five-year term. Vanessa has been deputy chair of the Western Australian Cricket Association since February 2016 and was co-opted to the Council of Curtin University for a three-year term from 1 April 2017. Dr Guthrie is a Fellow of the Australian Academy of Technological Sciences and Engineering (2013) and is an Honorary Doctor of Science, Curtin University.

‘Start-Up’ WA Delegation to Israel in 2023: “Have you event thought of going, or returning to Israel?”

Our WA Government JTSI supported AICC(WA) Start-Up Innovation Delegation themed “*New Economies for WA*” is inviting the start-up ecosystem in WA with interest in focus areas on the Digital Economy, including priority sectors: Cybersecurity and defense (including space and aerospace); Smart cities; Agritech (including opportunities to collaborate and showcase WA’s expertise in dryland agriculture, satellite technology and soil salinization); the concept of the ‘Startup Nation’ (particularly in relation to technology development and the conditions that support innovation); and Venture capital/private equity financing (targeted at increasing the capability of WA startups to attract investment and secure venture capital deals). Key delegation objectives include: 1. Supporting WA startups to attract investment and expand into international markets, including through insights into the venture capital sector and startup ecosystem; 2. Understanding ways in which Israel has overcome barriers to growth and success in order to maintain sustained growth and foster innovation; 3. Gaining insights into Israel’s capabilities in cybersecurity, defence and smart cities; 4. Showcasing WA’s strengths and capabilities across key sectors such as agritech and remote operations, and fostering partnerships in these sectors; and 5. Promoting WA as an ideal place to live, work and do business. To support the priority sectors identified above, the delegation calls for EOIs with the intention the delegations will comprise industry delegates across two streams: 1) Sector leaders in the cybersecurity, defence, smart cities and agritech industries (CEO/COO/Managing Director/Director level); and 2) Startups (WA companies in their early stages of operation). Places on the delegation are limited. EOIs should be sent to the AICC(WA) Delegation Director Mark Majzner at Mark@31ns.com.au for more information and to register your interest.

Nov/Dec date tbc (fnTS 3) “Global venture capital investment trends and new challenges in the marketplace post the COVID crisis – a USA-Israel-Australia’s Perspective” is event 3 (fnTS 3) in the two event AICC(WA) Sentient Hubs fnTS-futureNOW Technology Series for 2023. AICC(WA) hosts Mr Aaron

Gershenberg, former Chairman and a founder of Silicon Valley Bank Capital's fund of funds and direct funds, in conversation with global and local commercialization expert and moderator for the event, AICC(WA)'s Vice President **Mr Larry Lopez**. Larry is Chair, Australia-American Fulbright Commission; Partner, Australian Venture Consultants; and General Partner in Access Capital Ventures, an Australian based VC fund focused on early stage investment in Australian companies that have achieved commercial traction. Larry is former Director, Accelerating Commercialization, with the Government of Australia. Larry and Aaron will be joined by Israel's Start Up Nation guru **Mr Jon Medved**, an Israel/USA [serial entrepreneur](#), [venture capitalist](#) and [angel investor](#) in Israel's high-tech scene. He is the founder and CEO of [OurCrowd](#), a leading [equity crowdfunding](#) platform that connects its "crowd" of accredited investors to funding startup investments. OurCrowd was started in 2013 and within its first five years had raised \$800M in 160 startup companies and venture funds in its portfolio and today has multiplied its success with its global expansions from its original headquarters in Jerusalem and now additional offices in Tel Aviv, San Diego, New York, Toronto, London, Hong Kong, Singapore, and Sydney. Venue: tbc. Times: tbc. Open to Sponsors. Sponsors committed so far are: Sentient Hubs; Pawsey Supercomputing Center; Nexia Australia and Chronos. Supported by AROSE. To view sponsorship options click here: <https://sales.aiccwa.org.au/aiccwa-sponsorship>

AICC(WA) Boardroom Event "Education: Acting Local, Thinking Global" Education is a cornerstone of modern societies. It aims to provide children and adults with the skills necessary to thrive in a world experiencing the Third and Fourth Industrial Revolutions simultaneously. In addition, the world is being challenged by climate change, a global pandemic, and new geopolitical tensions. How is Western Australia's Education system travelling in this rapidly changing environment? Is our Education system "fit for purpose" and is it providing our citizens with the best opportunities to succeed? **Professor Peter Klinken AC, the Chief Scientist of Western Australia**, will present his views on Western Australia's secondary and tertiary Education systems. This event will be moderated by **Nicole Lockwood, Chair of Infrastructure WA**. Professor Klinken brings a wealth of knowledge to this discussion from his many years as a High School teacher, academic at the University of Western Australia and researcher who played a seminal role in establishing the Harry Perkins Institute of Medical Research. In his role as Chief Scientist of Western Australia is also the co-Chair of the State's STEM strategy and Implementation group. Hosted by Deloitte. Sponsors welcome, contact perth@aicc.org.au

Date tbc

AICC(WA) presents the Chair of ACCC-Australian Competition & Consumer Commission, Gina Cass-Gottlieb, the first female Chair of the ACCC since it was established as an independent statutory authority in 1995. Speech title, venue tbc. Times: 11.45am to 2.30pm. Open to Hosting and Event Sponsors.

Gina Cass-Gottlieb started her 5-year appointment as Chair of the ACCC on 21 March 2022. Before she joined the ACCC Gina was a senior and founding partner of Gilbert and Tobin's competition and regulation team. Gina has over 25 years' experience advising on a large number

of merger, competition and regulatory matters in Australia and New Zealand. She is widely recognised as one of Australia's leading competition and regulatory experts.

Gina was appointed by the Commonwealth Treasurer to the Reserve Bank of Australia's Payments System Board in 2013 and re-appointed in 2018. The Payments System Board is the regulator of access to payment systems. Gina was appointed to the Financial Regulator Assessment Authority in September 2021. She has received numerous accolades from Chambers Asia Pacific, Legal 500 Asia Pacific, Who's Who Legal, Lawyers Weekly Awards, Beaton Client Choice Awards and Best Lawyers Australia, for her competition and legal expertise. Gina was a Fulbright Scholar at UC Berkeley from 1986 to 1987, majoring in US competition law, financial institutions regulation and securities regulation.

Contact John Cluer on 0419938480 or perth@aicc.org.au for information on sponsoring or hosting this event.

Date tbc **AICC(WA)'s GeoPol Series Event 1 – Sovereign ownership of infrastructure** Both Australia and Israel have entered into contracts for Chinese operators to manage northern ports. With escalating geopolitical tension and dependence on key trading gateways, what are the implications and changing risks of foreign ownership? Since these contracts commenced what has changed? What are both Australia and Israel doing to protect their sovereign interests?

Date tbc **AICC(WA)'s GeoPol Series Event 2 – The Abraham Accords – an early example of new trading alliances** A new era of trade commenced in September 2020 due to economic normalisation between Israel and the UAE, Bahrain, Morocco and Sudan. The success of these alliances are evident in the value of this trade and longer-term geopolitical consequences. With rising political tension between China and Australia, does the Abraham Accord model contain any lessons or guidance for Australia as we seek new trading blocs and industry partners?

Date tbc ***Internet of Thieves*** featuring Brian Smith CEO Slipstream. A PRIVATE-Invitation Only AICC(WA)'s Cybersecurity Boardroom event. Brian present real-world cases and reviews the latest trends in cyber fraud, ransomware, and advanced persistent threats. He will guide us through the challenges and opportunities faced by business leaders in the impacted organisations in containing, remediating, and preventing these attacks. The event will be co sponsored by Carbon Black and also feature a partner from Clyde & Co, a global top 50 Law firm, and Australia's number one cyber law firm, joining Brian in his talk to discuss the emerging legal ramifications of a cyber-attack and how to mitigate the legal risk to the business, board, staff and customers.
